

G2-M6-Topic D

G2-M6-L17: Consider doing doubles fluency for 2-3 days leading up to this lesson, e.g. $2 + 2$, $3 + 3$, $5 + 5$, $8 + 8$

G2-M6-L18: Consider delivering the following subset for students to complete before they begin working on the Problem Set

- Skip count by twos to 20
- Draw a 7 by 2 array
- Write two addition sentences to match

G2-M6-L19: Consider requiring students to skip count by twos to 20 (written) before beginning the Problem Set.

G2-M6-L20: If behind in pacing, this could be consolidated with Lesson 19 or used as extension for students who have mastered L17-19 content.
