

G3-M3-Topic F

G3-M3-L19: Consider providing a few problems for students to complete before beginning the Problem Set, e.g. 8 ones = _____, 8 tens = _____, 12 ones = _____, 12 tens = _____

G3-M3-L20: Application Problem alternative – use a two-step problem from lesson 21 instead of the one provided.

G3-M3-L21: Instead of teaching this lesson explicitly, consider treating this as a review day for Topics D & F and use the word problems as extension.
